PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with hands-on experience in project development, manual and functional testing, debugging, and technical documentation across web, IoT, and blockchain applications. Co-author of an IEEE Xplore research publication. Shortlisted for the AI Data Quality Analyst Skill Training Program conducted by Don Bosco Tech (DB Tech) in collaboration with Accenture. Interested in software quality, data quality, and technology operations.

EXPERIENCE & TRAINING

Freelance Project Developer & Technical Documentation Specialist | *Freelance | 2025–Present*

Developed and supported 10+ academic projects across Java, Python, Web, IoT, and Blockchain, handling development, debugging, testing, and deployment. Prepared technical documentation, project reports, presentations, and research papers while coordinating with clients to understand requirements and deliver project demonstrations

AI Data Quality Analyst Skill Training Program | *Don Bosco Tech (DB Tech), in collaboration with Accenture | Kilpauk, Chennai*

Shortlisted through the Tamil Nadu Private Jobs Portal for the AI Data Quality Analyst Skill Training Program.

TECHNICAL SKILLS

Programming: Java, Python (AI with Python coursework), SQL

Testing & Quality: Manual Testing, Functional Testing, Test Case Design, Bug Reporting, SDLC, STLC, Agile

Data & Office Tools: MS Excel, Power BI, MySQL, Data Analysis

Web & Platforms: HTML, CSS, GitHub, VS Code, Eclipse

IoT & Blockchain: ESP8266, ESP32, PIR Sensors, Ethereum, IPFS/Filebase, MetaMask, Truffle, Ganache, ASCON

AI & Data Quality: AI Fundamentals, Data Annotation, Data Labelling, Data Validation, Data Cleaning, Data Quality Assurance, Data Accuracy, Data Consistency, Data Integrity, Error Identification, Quality Checks.

PROJECTS

Blood Bank Transparency System Using Blockchain & Decentralized Storage | *2025–2026*

Technologies: *Solidity, Ethereum, Truffle, Ganache, React.js, IPFS/Filebase, ASCON, MetaMask*

- Designed end-to-end system architecture and workflows for secure, transparent blood-bank data management.
- Integrated Ethereum smart contracts with IPFS/Filebase decentralized storage and implemented ASCON lightweight cryptography.
- Designed modules and user flows; performed functional testing and presented technical demonstrations.

Motion Detection Alert System — IoT | *2024*

Technologies: *Python, Flask, ESP8266, PIR Sensor*

- Developed a real-time motion detection and alert system integrating ESP8266/PIR sensors with a Python Flask server.
- Designed the workflow and tested hardware–software integration and alert functionality.

Online Forum Discussions Platform | *2023*

Technologies: *Java Servlets, MySQL, HTML, CSS*

- Developed a multi-user discussion platform with authentication, topic-based threads, and server-side session management.
- Designed the application workflow and tested core modules.

EDUCATION

B.E., Computer Science & Engineering | Sathyabama Institute of Science and Technology, Chennai | 2022–2026 | **CGPA: 7.87**

Higher Secondary (12th) | Maharishi Vidya Mandir Higher Secondary School, Rasipuram **| Percentage: 74.4**

SSLC (10th) | Maharishi Vidya Mandir Higher Secondary School, Rasipuram **| Percentage: 59.8**

RESEARCH PUBLICATION

Enhanced Blood Bank Transparency With Smart Contracts And Decentralized Storage On Ethereum — ICAISS 2026, IEEE Xplore
Co-authored with Kavirajan K | https://ieeexplore.ieee.org/document/11526218

CERTIFICATIONS

IoT Smart Home Automation — Techknots Academy & Sathyabama University
AI with Python — SkillForage
Java Programming — NPTEL
Full Stack Web Development — ExcelR (Jul–Oct 2024)
MATLAB Onramp, Fundamentals, OOP & Programming Techniques — MathWorks

LANGUAGES

English (Professional) | Tamil (Native)
